

Maxum Deadbolts

FEATURES	Medeco ³	BiLevel	Medeco X4	Logic
UL Listed for use on fire doors having a rating up to three hours	●	●	●	●
ANSI/BHMA 156.36 Grade 1 Certification for auxiliary locks and associated products	●			
ANSI/BHMA A156.30 Level A Certification on the cylinder assures patent protected key control and physical strength	●			
Can be incorporated into existing master key systems	●	●	●	
Security features to protect against drill, wrench, ice pick, kick-in, hammer, bumping and prying attacks	●	●		
Solid brass construction provides high quality and long cylinder life	●	●	●	
Deadbolt is designed to accommodate both mortise and drive-in face applications for greater flexibility and ease of installation.	●	●	●	
Large thumbturn provides ease of use for physically challenged individuals	●	●	●	
Keys may be integrated with Hybrid proximity head for greater system retrofit.	●	●	●	
Double cylinder captive thumbturn safety option available	●	●		

Medeco³ Premium High Security

For effective mechanical protection against most forms of attack as well as protection against unauthorized duplicate keys, Medeco³ cylinders are recommended. Security features including hardened steel components, pins that must be elevated, rotated, and interact with both a sidebar and a slider, and additional pick resistant features make Medeco³ the cylinder of choice to protect people, property and information.

Medeco³ BiLevel Patented Key Control

Medeco³ BiLevel cylinders may be incorporated into a master key system with Medeco³ high security, offering protection against all types of attack where needed, and patented key control cylinders for areas requiring less protection. BiLevel cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

Medeco X4 Patented Key Control

Medeco X4 cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

Loss & Liability Control

Many of the cylinders in this section are also available with an eCylinder Loss & Liability Control Solution. See the eCylinder Section for more details.

Medeco Maxum® Deadbolts

Deadbolts are about strength. Just hold a Medeco® ANSI Grade 1 Maxum® deadbolt in your hand, and you know this is one tough hunk of protection. As tough as a Maxum® deadbolt is on the outside, it's that smart on the inside. It can be ordered with the triple-locking security of a Medeco³cylinder. Recommended for residential and business use, it's available as a single- or double-cylinder or with a unique "captive thumbturn." The captive thumbturn converts the inside cylinder to a thumbturn for safe exit when the facility is occupied. A quick conversion when the facility is not occupied returns it to double cylinder mode and guards against unauthorized entry or exit. Maxum® deadbolts offer maximum protection with solid-brass construction, along with anti-drilling and anti-prying features.

Benefits:

- Unique "captive thumbturn"
- Bolt is designed for easy conversion accommodating either mortise and drive-in applications
- Solid-brass construction with steel inserts for added protection
- ANSI/BHMA A156.36 Grade 1 and UL437 Listed cylinders for high security
- Fits doors 1 3/8" to 2 1/2" thick
- Standard 2 1/8" crossbore and 1" edge bore (ANSI A115.13 prep)

Warranty:

Lifetime warranty against defects in material and workmanship.

Finishes:

Available in all standard finishes to match existing hardware.

Applications:

It is the ideal choice for a wide variety of commercial and heavy duty residential applications where consistent quality, ease of use and installation are required. Ideal applications include:

- Office buildings
- Hospitals
- Schools
- Restaurants
- Apartments
- Retail outlets

Technical Information:

SFIC cylinder options include Medeco X4 and Nexgen XT

Available Key Technologies:

Mechanical:

- Medeco³
- Medeco³ BiLevel
- Medeco X4

eCylinder:

- Medeco³ Logic
- Medeco Logic

Note: (P) refers to **Pinned** and **(S)** to **Sub-Pinned** at the end of each part string in the price book.

Medeco Maxum[®] Residential Deadbolt

Deadbolts are about strength. Just hold a Medeco[®] ANSI Grade 1 Maxum[®] deadbolt in your hand, and you know this is one tough hunk of protection. As tough as a Maxum[®] deadbolt is on the outside, it's that smart on the inside. It features the triple-locking security of a Medeco³ cylinder. Designed with a residential aesthetic, the Maxum[®] Residential Deadbolt is available as a single- or double-cylinder or with a unique "captive thumbturn." The captive thumbturn converts the inside cylinder to a thumbturn for safe exit when the facility is occupied. A quick conversion when the facility is not occupied returns it to double cylinder mode and guards against unauthorized entry or exit. Maxum[®] deadbolts offer maximum protection with solid-brass construction, along with anti-drilling and anti-prying features.

Benefits:

- Unique "captive thumbturn" available
- Bolt is designed for easy conversion accommodating either mortise and drive-in applications
- Solid-brass construction with steel inserts for added protection
- ANSI/BHMA A156.30 and UL437 Listed cylinders for high security
- Fits doors 1 3/8" to 2 1/2" thick
- Standard 2 1/8" crossbore and 1" edge bore (ANSI A115.13 prep)

Warranty:

Lifetime warranty against defects in material and workmanship

Finishes:

Available in all standard finishes to match existing hardware

Applications:

It is the ideal choice for a wide variety of commercial and heavy duty residential applications where consistent quality, ease of use and installation are required. Ideal applications include:

- Apartments
- Retail outlets
- Residences
- Multi-family Units

Technical Information:

SFIC cylinder options include Medeco X4 and Nexgen XT

Available Key Technologies:

Mechanical:

- Medeco³
- Medeco³ BiLevel
- Medeco X4

eCylinder:

- Medeco³ Logic
- Medeco Logic

Single Cylinder Maxum® Deadbolt - Residential Trim

14 Series Deadbolts

The Medeco® 14 Series is a Grade 2 commercial deadbolt that provides an outstanding combination of cylinder options, performance and value. It is the ideal choice for a wide variety of commercial and heavy duty residential applications where consistent quality, ease of use and installation are required. Ideal applications include: office buildings, hospitals, schools, restaurants, apartments and retail outlets. The Medeco® 14 Series can be used in conjunction with either Medeco³, BiLevel, or Medeco X4 Key Control cylinders as well as Medeco® eCylinders. When offered alongside the Medeco® Maxum deadbolt, it provides end users a choice to select from these options of smart deadbolt solutions.

Benefits:

- One inch throw bolt with hardened steel free spinning steel pin insert resists sawing
- Bolt mechanism designed to adjust for both 2 3/8 inch or 2 3/4 inch backset, with 2 3/4 inch fixed backset also available, which provides greater flexibility and ease of installation
- Free turning outer ring on collar resist wrenching attacks
- Utility patented key control, (for cylinders that incorporate the Medeco³ design), provides protection against the unauthorized duplication of keys
- Medeco³ cylinders include special elevating and rotating pin tumbler design, along with false slots on the bottom pins, mushroom top pins and a sidebar mechanism, work together, to provide superior pick resistance
- Medeco³ cylinders also include angled cuts on the keys, along with fore and aft positioning, in the Medeco³ design, provide added dimensions that dramatically increases key combinations and enables Medeco® to produce some of the largest master key systems in the industry
- Medeco³ cylinders include hardened steel inserts, positioned in critical areas of the cylinder, provide a high degree of drill resistance
- Medeco³ cylinders UL437 listing provides assurance that cylinders meet universal standards for drill and pick resistance and resistance against other types of forced attack

Applications:

It is the ideal choice for a wide variety of commercial and heavy duty residential applications where consistent quality, ease of use and installation are required. Ideal applications include:

- Office buildings
- Hospitals
- Schools
- Restaurants
- Apartments
- Retail outlets

Warranty:

Warranted for two (2) years against manufacturer's defects. See the Medeco® limited warranty for full details

Technical Information:

- SFIC cylinder options include Medeco X4 and Nexgen XT

Available Key Technologies:

Mechanical:

- Medeco³
- Medeco³ BiLevel

Single Cylinder Grade 2 Deadbolts

Description	Part Number	Medeco ³	BiLevel	Medeco X4	eCylinder
Single cylinder Gr. 2 deadbolt, adjustable backset	14*12110 (P)				•
	14*12110 (S)
